

EUROIMMUN Wins 2023 New Jersey Top Workplaces Award

[EUROIMMUN US](#), a [PerkinElmer, Inc.](#) company, announced that it has been named a winner of the 2023 New Jersey Top Workplaces award that celebrates regionally recognized companies that make the world a better place to work together by prioritizing a people-centered culture and giving employees a voice.

“Employees are the lifeblood of any successful organization. The talent, enthusiasm and commitment of our team have made the culture here at EUROIMMUN our competitive edge in the clinical diagnostics industry. At EUROIMMUN, our customer-centric focus coupled with industry-leading diagnostic solutions positively impacts patient care across North America,” said Greg Stock, general manager of EUROIMMUN US. “It has been the highlight of my professional career to watch our talented team grow and develop throughout this successful journey. While the organization has consistently achieved double-digit growth over the past decade, we’ve done so in a collaborative, inclusive and goal-driven environment that allows our valued team members to maintain a healthy work-life balance.”

Organized by NJ Advance Media, the 2023 New Jersey regional awards program measures workplaces on three dimensions – employee engagement, leadership, and the basics. The program surveys the participants’ employees using the Engage Workplace Survey, and the results are determined by the anonymous feedback captured. A total of 88 companies made this year’s list.
